POTATOES FRESH OR CHILLED : New, from 1 January to 30 June: CN8 : 07019050

Nature of the protection :

- no entry price
- for some countries (EG, IL, JO, LB, MA and TN) preferences are defined within a quota. Egypt and Israel are really constrained by the volume of their quotas : for Israël, the volume of exports to EU exceeds by 647% the volume of quotas granted, while the out tariff quota is the MFN tariff. For Egypt, the volume of exports exceeds the quota by 57%
- In the opposite, for Morocco and Tunisia the quota is far to be fulfilled and Jordania and Lebanon despite a quota, the exports are very small.

GREEN BEANS : CN8 : 07082000

No Entry Price, the protection varies during the year. Two periods for the MFN countries :

- the winter period : from October to June
- the summer period : from July to September

No specific duties, only an ad-valorem part with a minimum. Thus, for the winter period and the MFN regime, the ad-valorem taxe is 10.4% but with a minimum of 1.6€/100kg. That means that if the tax perceived is less than 1.6€/100kg (i.e the import price is less than 15.38€/100kg) then the tax applied is 1.6€/100kg. This minimum duty acts as a minimum entry price.

The duties are perceived on the unit value fixed each two weeks by the European Commission.
